"Opportunities through education" is the motto of the Frankfurt University of Applied Sciences (Frankfurt UAS). Internationality, diversity and social responsibility are its values. It sees itself as an institution of lifelong learning and as an innovative research and development partner for the region. Our more than 16,000 students and approximately 900 staff members - professors, researchers and administrators - shape our institution.

We are looking for persons with an above-average doctorate who are enthusiastic about applying their extensive professional experience in teaching and research at our higher education institution. A practical approach, interdisciplinary training, international orientation and regional integration mark our profile. Excellent teaching and research quality is our aspiration.

Our Faculty 2: Computer Science and Engineering is looking for a Professor for the following field: Radio Frequency Engineering reference number: P12/2021 beginning summer semester 2022

The position owner is expected to represent the field of Radio Frequency Engineering in electrical engineering courses. In particular, industrial as well as practical experience should be available in the following areas: High and Very High Frequency Engineering, Field Theory, Antenna Technology, Electromagnetic Compatibility, and Electromagnetic Environmental Compatibility. Involvement in applied research in at least one of the above areas is required. In addition, participation in teaching in the fundamentals of electrical engineering as well as in the above areas, including for other courses of study, is expected.

The scientific qualification has to be proven by a relevant study and usually by a PhD degree.

For information, please contact Prof. Dr. Trick by email: trick@fb2.fra-uas.de

We expect from our professors:
High presence at the institution of higher education and intensive care of our students; participation in basic training i.e. the representation of the relevant field in an introductory form in all degree courses of the faculty; qualification and aptitude to research and successful acquisition of third party funding; gender and diversity competence; participation in international activities of the institution of higher education, including teaching in the English language; participation in the interdisciplinary Studium generale; contributions to offers in continuing education, life-long learning and eLearning; taking on responsibility in the frame of academic self-administration; continuing education in the technical discipline and higher education didactics; willingness to cooperate cross-regionally with other institutions of higher education in the region; dedication and initiative in the frame of service-oriented salary.

The hiring conditions are in accordance with §§ 61 and 62 of the Hessian Higher Education Act. This is a permanent contract. The first appointment as a professor is first as a public-service employee on probation or with an unlimited employment contract with a 3-year long probation period.
Further official duties and requirements are listed under §§ 61 - 63, 68 and 69 of the Hessian Higher Education Act from Dec 14, 2009 (Federal Law Gazette I p. 666), last amended by law from Dec 18, 2017 (Federal Law Gazette I p. 221) – and can be viewed under www.hmwk.hessen.de.

The Frankfurt University of Applied Sciences encourages applications from women in order to elevate the employment share. Persons with disabilities are given preference in the frame of currently valid regulations.

Applications with supporting documents (incl. publication list, projects, depiction of teaching and research activities) are requested via mail until July, 15 2021 including the position number to be sent to personal-prof-beamt@hr.fra-uas.de.
