"Opportunities through education" is the motto of the Frankfurt University of Applied Sciences (Frankfurt UAS). Internationality, diversity and social responsibility are its values. It sees itself as an institution of lifelong learning and as an innovative research and development partner for the region. Our more than 16,000 students and approximately 900 staff members - professors, researchers and administrators - shape our institution.

We are looking for persons with an above-average doctorate (or similar proof of qualification in the field of architecture) who are enthusiastic about applying their extensive professional experience in teaching and research at our higher education institution. A practical approach, interdisciplinary training, international orientation and regional integration mark our profile. Excellent teaching and research quality is our aspiration.

Our Faculty 01: Architecture – Civil Engineering - Geomatics is looking for a Substitute Professor (Salary grade analogous to W2 Hessian Salary Law (HBesG)) for the following field:
for Design and Construction
reference number: P06/2021
starting this winter semester 2021/2022

It is a special type of employment relationship under public law.

Frankfurt University of Applied Sciences wants to strengthen internationality in architecture. Parallel to our German master program in architecture, we have been offering the new master program “Advanced Architecture in Design and Construction” since April 2017.

We are looking for applicants with strong skills in design and construction as well as relevant experience in research and practical work. We expect you to be enthusiastic about the current challenges and opportunities that design and construction provide for architecture as well as for the urban environment. We also expect you to help to further develop the program’s international relationships in the fields of teaching and research. We are looking for applicants who are experienced designers, possess strong professional skills in construction, and can help set the agenda for the growing social and environmental challenges to which architecture and urban planning have to respond.

The successful applicant will be expected to provide innovative and high quality teaching primarily at graduate level and help enhance the new program “Advanced Architecture in Design and Construction”. Applicants must hold a professionally recognized qualification in architecture and have completed a doctorate or equivalent. Professional registration (e.g. NZRAB, RIBA or AIA) would be an advantage. Preference will be given to applicants who have experience in teaching in the areas of design and construction, with a strong record of publication and postgraduate supervision and with very good English and fair German language skills. Further details on the master program and the position are available from the head of the program, Prof. Dr.-Ing. Wolfgang Jung (email: Wolfgang.Jung@fb1.fra-uas.de).
We expect from our professors that they:
- are highly present at our institution and closely
  supervise and support our students; take part in general training, i.e. teach the relevant subject in an
  introductory form in all of the faculty’s degree courses; are enthusiastic
  about research and experienced in the acquisition of third-party research funding; have gender and
  diversity competence; take part in the institution’s international activities, including teaching in
  English; participate in the interdisciplinary studium generale; contribute to the institution’s offers in
  life-long learning and eLearning; take on responsibility in the context of academic self-administration;
  continually develop and improve their own knowledge of the technical discipline and higher
  education didactics; cooperate with other higher education institutions in the region.

Official duties and requirements are listed under §§ 61, 62, 68, 69 und 74 HHG and can be viewed
under www.hmwk.hessen.de.
The substitute professorship is limited to two years.

The Frankfurt University of Applied Sciences encourages applications from women in order to
increase the share of female employees.
Persons with disabilities are given preference in the frame of currently valid regulations.

Further information according to Article 13 DS-GVO about applications for job advertisements you'll

Applications with supporting documents (incl. project portfolio, description of teaching and research
activities, publication list) are requested to be sent via e-mail to personal-prof-beamt@hr.fra-uas.de
until May 7th 2021, and including the reference number.

If the data volume of maximal 10MB per e-mail is exceeded, several e-mails can be sent.

Your application must be addressed to:
