

"Opportunities through education" is the motto of the **Frankfurt University of Applied Sciences (Frankfurt UAS)**. Internationality, diversity and social responsibility are its values. It sees itself as an institution of lifelong learning and as an innovative research and development partner for the region. Our more than 16,000 students and approximately 900 staff members - professors, researchers and administrators - shape our institution.

**We are looking for persons with an above-average doctorate who are enthusiastic about applying their extensive professional experience in teaching and research at our higher education institution. A practical approach, interdisciplinary training, international orientation and regional integration mark our profile. Excellent teaching and research quality is our aspiration.**

**Teaching and research at a dynamic institution of higher education at the  
Faculty 4: Health and Social Work**

**The Faculty of Health and Social Work at Frankfurt UAS is one of the largest of its field in Germany. It represents the entire breadth and depth of social work from the bachelor to the doctorate level, and has been a forerunner in bringing the health professions into the academic realm. Social responsibility and interdisciplinary work are key facets to all of our related projects and are just as important to us as the close link between science and practice.**

**Our Faculty 4: Health and Social Work  
is looking for**

**a Professor  
(Salary grade W2 Hessian Salary Law (HBesG))  
for the following field:  
Vocational Pedagogy in Health Care  
reference number: P10/2022  
beginning summer semester 2023**

You will represent and take on the following tasks and subject areas in current and future health-related programs of study in the faculty:

- Teaching in the areas of vocational pedagogy / didactics / subject didactics in the bachelor's and master's degree programs in vocational pedagogy for nursing and health care professions
- Development of innovative pedagogical, didactical and technology-supported concepts in health-related education
  - Supervision and design of the practical study phases
  - National and international vocational pedagogical networking
    - professional development in health care professions
  - Development and support of digital teaching and learning offers

### **Requirements:**

- Completed bachelor's and master's degree in educational science or comparable discipline (e.g., nursing pedagogy, teaching, graduate pedagogy)
- or completed studies in a task-relevant reference discipline and pedagogical master's degree
- completed vocational training in a health or social profession, alternatively at least one year of practical experience with clients in the health care sector
  - relevant doctorate and research in the area of the teaching field
    - teaching experiences or in comparable areas (e.g. patient counseling, coaching)
  - Willingness to manage and further develop courses in the area of vocational pedagogy
    - Experience in the use of new technologies in teaching and their delivery
  - Extensive experience with digital teaching and/or technology-enhanced applications in health care
    - Teaching and research concept

### **We expect from our professors:**

High presence at the university and intensive supervision of our students;  
participation in basic training i.e. the representation of the relevant field  
in an introductory form in all degree courses of the faculty;

qualification and attitude to research as well as successful acquisition of third-party funding;  
gender and diversity competence; participation in international activities of the institution,  
including teaching in the German language;

participation in the interdisciplinary Studium Generale; contributions to offers  
in continuing education, life-long learning and eLearning;  
taking on responsibility in the frame of academic self-administration;

continuing education in the technical discipline and higher education didactics;  
willingness to cooperate cross-regionally with other institutions of higher education in the region;  
dedication and initiative in the frame of a service-oriented salary.

The hiring conditions are in accordance with §§ 67 and 68 of the Hessian Higher Education Act.

This is a permanent contract. The first appointment as a professor is

**either as a public-service employee on probation  
or with an unlimited employment contract with a 3-year long probation period.**

Further official duties and requirements are listed under §§ 67-69, 75 und 76 of the Hessian Higher Education Act and can be viewed under [www.hmwk.hessen.de](http://www.hmwk.hessen.de).

The Frankfurt University of Applied Sciences encourages applications from women  
in order to elevate the employment share. Persons with disabilities  
is given preference in the frame of currently valid regulations.

Applications with supporting documents (incl. publication list, projects, depiction of teaching and  
research activities) are requested via mail **until June 24, 2022**  
with reference to the position number to be sent to:
