"Education is the key to the world" is the motto of the Frankfurt University of Applied Sciences (Frankfurt UAS). Internationality, diversity and social responsibility are our values. Ours is an institution dedicated to lifelong learning and an innovative research and development partner in the region. Our more than 16,000 students and 900 employees in teaching, research and central administration are responsible for it.

We are looking for candidates with an outstanding PhD who would like to contribute their extensive practical experience in the professional world to teaching and research at our university. The cornerstones of our educational institution are practical orientation, interdisciplinary training, internationality and regional integration. Excellent teaching and research are our aspirations.

We are looking to fill the following position in Faculty 3: Business and Law beginning summer semester 2023 or winter semester 2023/24:

Professor (W2 salary scale HBesG, Hessian Federal Civil Service Remuneration Act) in the following subject area:
Information Systems, in particular Artificial Intelligence and Entrepreneurship
Job advertisement number P30/2022

The position holder is expected to represent the field of “Information Systems, in particular Artificial Intelligence and Entrepreneurship” in both teaching and research.

Teaching is to be provided in the form of lectures delivered in German and English within the Bachelor and Master Degree Programs, especially in the business administration programs, to the extent of nine semester hours per week. In addition, participation in the university’s executive education programs and start-up activities is desired.

The position holder will be funded by the Hessian Center for Artificial Intelligence (hessian.AI) and is expected to contribute as its member to the achievement of the goals formulated by hessian.AI in research, teaching, further education and transfer as well as to start-up promotion. Active participation in the research activities of hessian.AI as well as in the center’s own teaching, continuing education and transfer formats is expected. The independent right to award doctorates at the cross-university doctoral center "Applied Computer Science" offers excellent conditions for this.

Comprehensive practical experience is required, which combines technical and business competence at the interface of artificial intelligence and the development and implementation of innovative business models or innovative processes in the sense of business informatics.

We are looking for an innovation- and start-up-oriented personality with outstanding communication skills, interdisciplinary willingness to cooperate and entrepreneurial creative drive, especially in a
Research experience in the focus area of the professorship proven by relevant scientific publications or acquired third-party funding is advantageous.

We refer to the employment requirements according to §§ 67-69 of the Hessian Higher Education Act. Applicants will be requested to submit a teaching and research concept as well as a concept for the promotion of AI-based start-up activities at the university that meets the requirements of the position. Please take note of the information found here: www.frankfurt-university.de/Fb3-Bewerbung.

For information by e-mail, please contact Prof. Dr. Nils Urbach: nils.urbach@fb3.fra-uas.de

We expect from our professors:

- High presence at the institution of higher education and intensive care of our students;
- participation in basic training i.e. the representation of the relevant field in an introductory form in all degree courses of the faculty;
- qualification and aptitude to research and successful acquisition of third party funding;
- gender and diversity competence;
- participation in international activities of the institution of higher education, including teaching in the English language;
- participation in the interdisciplinary Studium generale;
- contributions to offers in continuing education, life-long learning and eLearning;
- taking on responsibility in the frame of academic self-administration;
- continuing education in the technical discipline and higher education didactics;
- willingness to cooperate cross-regionally with other institutions of higher education in the region;
- dedication and initiative in the frame of a service-oriented salary.

This is a permanent position. The first appointment as a professor is as a public-service employee on probation or with an unlimited employment contract with a 3-year long probation period.

Further official duties and requirements are listed under §§ 67-69, 75 and 76 of the Hessian Higher Education Act, found in www.hmwk.hessen.de (only available in German).

The position is open to all persons, irrespective of gender. The Frankfurt University of Applied Sciences would like to increase the proportion of women in areas in which they are underrepresented and thus applications from women are particularly welcome and will be treated with priority of they have the same qualifications and as long as there are no clear reasons which make a fellow applicant more suitable. Preference will be given to severely disabled applicants if they can provide equal qualifications.

You can find further information on the general data protection regulations of the Frankfurt UAS at (only available in German):
https://www.frankfurt-university.de/index.php?id=5184

Applications comprising all usual documents (including a list of publications, projects and a description of previous teaching and research activities as well as the above mentioned start-up concept) must be sent with reference to the job advertisement number by September 25, 2022 via email to personal-prof-beamt@hr.fra-uas.de.

The President of the Frankfurt University of Applied Sciences, Human Resources, Nibelungenplatz 1, 60318 Frankfurt.
