U!REKA Change Agents

Are you passionate about finding innovative solutions to sustainability challenges?

U!REKA Change Agents programme brings together students from across Europe to collaborate in multidisciplinary and multicultural teams, using design thinking and other creative learning methods to tackle real-world sustainability issues.

The Challenge: “Climate neutral and smart cities”

In the Change Agents programme, you'll work on the Climate Neutral and Smart Cities challenge within a multidisciplinary and multicultural team. Together with your team, you'll develop and ideate practical solutions to address this challenge, utilizing tools provided through workshops. Sustainable future is built on competence and innovative solutions!
