

# **SARChI: Human Capabilities, Social Cohesion through the Family & The Centre for Interdisciplinary Studies of Children, Families and Society**

## **Presents a workshop:**

### **EVALUATION SOCIAL INTERVENTIONS WORKSHOP**

Utilizing Sustainable Development Goals (SDGs) is an effective approach to evaluate social interventions. This not only provides a framework for measuring impact but also helps to demonstrate accountability and transparency to stakeholders. By incorporating SDGs into their evaluation process, organizations can ensure that their interventions are making a meaningful and lasting impact on society.

### **LEARN THE "HOW TO" IN EVALUATING SOCIAL INTERVENTIONS**

### **PRESENTED BY CISCFS IN THE DIETETICS BUILDING**

**ON 28 NOVEMBER, 2023**

**@9:30 -16:00**

Dr. Raan-Hann Tan is Research Fellow at the Institute of Malaysian and International Studies (IKMAS), Universiti Kebangsaan Malaysia (UKM). Her research interests include ethnic and religious minorities, with a keen focus on culture, identity, kinship, social organization, language and community development. She has published her research in Malay, English and Portuguese. Recently, she has participated in projects aligned with the United Nations Sustainable Development Goals (SDGs), namely Valorising Evidence on Inclusive Social Development to Achieve the Sustainable Development Goals in Malaysia and Localising SDGs in Malaysia.
