

## International Week

- Invitation and program -  
22<sup>nd</sup> – 26<sup>th</sup> November 2021

***Dear students and guests,***

I would like to invite you to our next International Week at the Frankfurt University of Applied Sciences. The event offers a variety of lectures from our SOLID partners in Central Asia and China, as well as from our colleagues from Europe. This international and interdisciplinary program is dedicated to education, research, and practice in social work. The lectures will focus on social work in the fields of drug use, treatment, HIV/AIDS and other infectious diseases, as well as carceral social work in detention facilities. The invited speakers will cover aspects of history and international development of social work, drug policy and practice, address questions on how to deliver care, fight stigma and discrimination in day-to-day social work practice, and expand access to social services for the most marginalized and underprivileged groups in our society.

The event will be in a hybrid format – live and online. The lectures will be in English and in German. Registration details are available via this link: <https://t1p.de/8n10>

The event will take place via Zoom.
