

About the Project Booster:

The Project Booster is an online-based visual platform which will help U!REKA members to connect around ideas for joint collaborative work. With this call for proposals we invite academic staff members of the U!REKA institutions interested in participating at the conference, to submit their project proposals for the workshops to this new format. By using the platform you can contribute to the thematic areas of the workshops by offering your ideas to other academics of the alliance, sharing common expertise or complementary knowledge on a given topic. The Project Booster is also a platform to increase the visibility of diverse research and applied project work at U!REKA institutions and a vehicle to get involved into new collaboration.

How to contribute to the Project Booster

1. Registration to the platform at <https://app.viima.com/metropolia/ureka-conference-frankfurt-2018/> . If you open the link you will be asked to register to the platform:

There are two possibilities for registration described below:

- a. If you use Office 365 at you institution you can register via this option:

- b. If you do not use Office 365 at you institution, choose login with Viima account.

Please use your **institutional e-mail address** for the registration. If you face any problems please contact: Elina Värtö at Elina.Varto@metropolia.fi

Submit a proposal/idea/project description for the U!REKA conference.

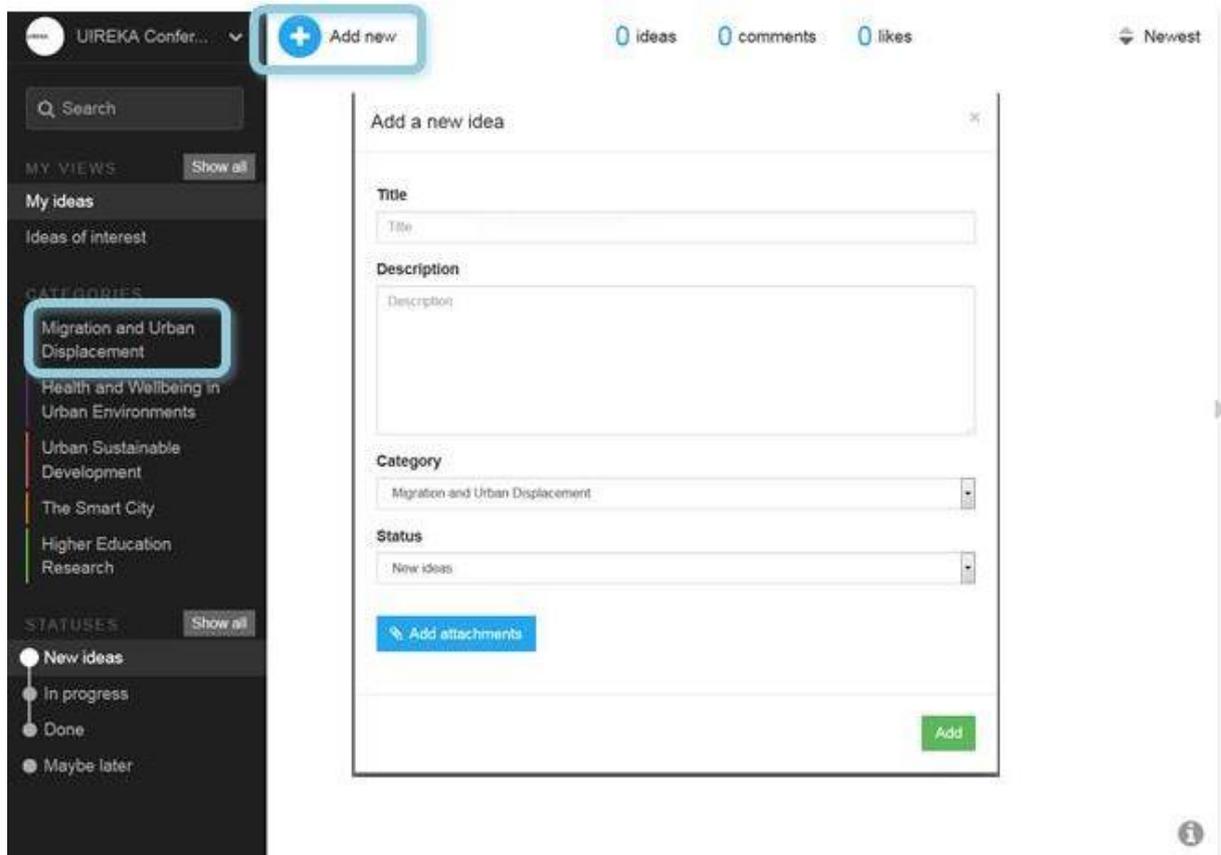

After the registration you will be directly guided to the start page of the platform:

2. In the menu on the left hand side you can choose the thematic area you would like to contribute to with your proposal:

3. After choosing a thematic area you can add your proposal by clicking on **“Add new”**:

By making a contribution to the platform you can include text, files, pictures or videos to your proposal. Hashtags can be used to link ideas and themes. Your fellow colleagues from the other U!REKA institutions can comment, like and commit to your project proposal after submission.
